Instructions for Use - MOD Form 704E(Puma HC2 NEF)

1.   **General.** As a local management aid, the MOD Form 704E(Puma HC2 NEF) may be used to record SI(T)s not completed at the time of issue. The flexibility to raise a MOD Form 704E(Puma HC2 NEF) instead of conducting the SI(T), it will be described in the SI(T). The form is a controlled form and its use in the MOD Form 700C will be directed by the DT via the MOD Form 799/1(Puma HC Mk2).

2.   **Recording an entry in the MOD Form 704E(Puma HC2 NEF).** An entry in the MOD Form 704E(Puma HC2 NEF) is raised as follows:

   a.   Complete column (a) with the reference eg RTI/PUMA2/1234.

   b.   Complete column (b) with the MWO raised to claim the work done to transfer the SI(T) to the MOD Form 704E(Puma HC2 NEF).

   c.   Complete column (c) with the title of the SI(T).

3.   If a subsequent requirement is defined to conduct an SI(T), clearing the entry on the MOD Form 704E(Puma HC2 NEF) is achieved by entering the SNOW in column (d) under which the required actions of the SI(T) have been completed.

Note: The Aircraft is **NOT** permitted to fly with **ANY** open MOD Form 704E(Puma HC2 NEF) entries. In addition the MOD Form 704E(Puma HC2 NEF) **MUST** be checked **BEFORE** a cannibalisation is authorized.
