

Instructions for Use

Compass Calibration Log - MOD Form 712A

Compass Calibration Log.

1. Compass Calibration results are held, and updated, in the GOLDesp database in accordance with JAP(D) 100A-0409 Series.
2. The authorized person signing the 'MWO Co - ordination Block' at Field 4 of the MOD Form 707B(IS) is responsible for:
 - a. Ensuring the Compass Calibration Detail within the GOLDesp database has been updated.
 - b. Ensuring an associated Compass Calibration Log (MOD Form 712A) has been completed and filed in this section.

GOLDesp Off Line Procedures.

3. If a compass swing is carried out whilst GOLDesp is Off Line, a MOD Form 712A is to be completed. During recovery to On Line working, the Compass Calibration Detail within GOLDesp is to be updated.

Note: During On Line working, the MOD Form 712A may also be used to record the data at the aircraft when carrying out a calibrated compass swing.
